(FEASIBILITY STUDY AND DETAIL DESIGN FOR DAMS' CONSTRUCTION AT JESR AL MALAQY
AREA IN AL FARA'A- NABLUS GOVERNORATE

Country: State of Palestine

Name of Project: Feasibility Study and Detail Design for Dam

Construction at Jesr al Malaqy Area in Al Fara'a- Nablus

The Palestinian Water Authority (PWA) announce its interest to obtain Consultancy Service for the preparation of a feasibility study and detailed design for Jesr al Malaqy in A; Fara'a/Nablus Governorate, in accordance with Palestine Government policies and directions concerning rainfall runoff collection through dams in different areas to be used mainly for irrigation of agriculture lands and injection excess water into aquifers .

The consulting services ("the Services") include:

1. Conducting a comprehensive feasibility study for the construction of a rainwater storage dam at Jesr El-Malaqy, which includes reviewing previous studies and preparing more topographic, geological, hydrological and environmental studies to determine the exact location, size and type of the dam to maximize the benefits of its construction and preparing a comprehensive feasibility report for results, recommendations and cost analysis.
2. Preparing detailed engineering designs for the dam, including design drawings, technical specifications, bills of quantities, survey reports and environmental management requirements, in addition to bidding documents for building the dam in accordance with international best practices.

The implementation period for the required consultancy service is six (6) months.

The Palestinian Water Authority (PWA) invites eligible international or consulting firms ("Consultants") to indicate their interest in providing the Services described above. Interested consultants must provide information demonstrating that they are qualified and experienced to undertake the provision of the required consulting services (brochures, description of similar assignments, experience in similar conditions, availability of appropriate skills among staff, etc.).

Expressions of interest submitted by interested consultant must not exceed 100 pages, The short-listing criteria are:

1. General Experience of the firm: An international water and wastewater consultancy firm with proven experience in developing feasibility studies in water harvesting projects , and designing medium to large sized storage dams ,with at least 20 years' Experience in the field.
2. Specific Experience of the firm: The firm should have a proven track record of previous experience in implementing similar assignments/studies and should have successfully completed at least two (2) similar assignments in the last 5 years at least 5 similar assignments in the past 15 years, preferably in design or rock fill/concrete medium-large scale storage dams.
3. Technical, managerial and financial capabilities of the firm; and availability of appropriate skills among staff.

Consultants may associate with other international/ regional firms in the form of a joint venture or a sub consultancy to enhance their qualifications. If the consultant is a Joint Venture (JV), the Expression of Interest shall include a copy of the JV Agreement entered into by all members

According to the PA regulations; ONLY the winner consultant should create local registration under the name of the winner consortium.

A Consultant will be selected in accordance with the **Quality and Cost Based Selection (QCBS) Method** Among the submitted applications, PWA will shortlist a maximum of 6 consultants, to whom the Request for Proposals to carry out the services for the mentioned above assignments shall be sent.

Further information can be obtained at the address below during office hours Sunday-Thursday 09:00 to 14:00 form date 31/10/2022

Expressions of interest must be delivered in a written form to the address below (in person, or by mail) on or before Monday 05 of December 2022 no later than 11:00 morning.
